**DETAILED ACTION**

1. Claim 1 has been examined.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. Furthermore, the recitation of attribute and attribute values were not defined in a clear and meaningful way as to allow one of ordinary skill in the art to understand the claimed invention as a whole.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bricknell U.S. Pat. No. 7165181 discloses method for establishing trust without revealing identity.

Zimmerman et al. U.S. Pub. No. 20050223007 discloses remote management and provisioning of a system across a network based connection using direct anonymous attestation protocol.
